

## SILVER CITY SEES RENEWED ACTIVITY

Contracts for Ore Movement  
Evidence Increasing Operations  
at Mines.

Silver City, N. M., Nov. 11.—A revival of mining activity in the camps of this section is shown in the contracts being let by mining men for the transportation of ore from the local smelter for shipment. The following contracts have been let: The Woodward Mining company operating properties in the Bald mountain district, for hauling 50 tons daily, and the James O'Hara, who recently purchased the Alaska group in the Pinos Altos district, for three carloads daily. The first named company has already in the local yards two carloads for shipment to the El Paso smelter. The ore from the Alaska group is to be shipped to Mexico ports.

The officials of the El Paso Copper company are at the mines in the Pinos Altos district, and will inspect the work being done on the Pacific mines Nos. 1 and 2, and look after the first shipment of ore from the Western Belle group. The ore is now at the local smelter yards, where it was brought by the new railway from Pinos Altos, and as soon as the necessary cars arrive, the shipment will be made. Regular shipments will now commence.

From the Socorro Mines company, operating at Mogollon, eight bars of gold and silver bricks have been received. The heaviest bar weighed 136 pounds and an average weight of the eight bars ran over 50 pounds. The shipment was made to the New York office of the company and represents the recent run at the Mogollon mill.

Mining machinery for Cleveland & Weatherhead operating the lead and silver group of mines, is arriving daily and the being shipped out as rapidly as the freight facilities here will permit. The handling of the freight to the Helen Mining company is taxing the heavy Tenney wagons and teams, also, and the surrounding camps which are just opening up, such as Bald Mountain, which has been shipping only one car each week, and the Pinos Altos camp, in which two companies are just beginning to ship, are demanding heavy teams to handle their increased shipments.

Much interest is taken by mining men here in the new strike made on the Fulkner mine by the El Paso Copper company. In the drill hole which is being driven, at the 600 foot depth. The drill is still in rich ore at an additional 200 foot depth.

## PROGRESS IS MADE IN SOCORRO MINES

Bernstein Clean-Up Produces 11,495 Troy Ounces of Bullion.

Mogollon, N. M., Nov. 11.—At the Socorro mines good progress is being made in sinking the main shaft. Development in the new ore body encountered in 500 east continues to expose the same high grade milling ore. Three thousand six hundred tons were milled during the month. The use of all air drills has been discontinued, hand steel now being employed throughout the mine. Regular shipments of bullion and concentrates are being made.

**Progress at the Deadwood.**  
In the Deadwood mines another strong vein five feet wide, carrying values was cut in sinking pump below the 500 foot level. This lies on the foot wall side of the famous Last Chance vein which was passed through just below the 400 foot level. In all, four well defined, separate veins have been cut in sinking the vertical shaft from surface to the present depth. The high compression oil engine, tables and other machinery for the mill has reached Silver City, together for the pipe for the water line; part of which is en route on wagons to the mines. Rapid construction of the mill continues.

**Bernstein Clean-Up.**  
The last clean-up of the Bernstein company produced 11,495 Troy ounces of bullion; 48 sacks of high grade concentrates were obtained from 562 tons of ore crushed the past week. The recently installed pipe line is furnishing ample water for the entire plant, by gravity, effecting a great saving over the old system of pumping. Thirty stamps are now dropping.

Two of the old mines in the Treasure Mining and Reduction company's mine are producing some very good milling ore. As soon as the necessary permits will permit, the crew will be increased. Some ore has been crushed at the mill. The ore wagons are hauling seven tons per trip for each outcrop from the mine to the mill.

**NEW POWER SYSTEM FOR EL TIGRE MINING CAMP.**  
A. J. King, general manager of the Cinco de Mayo mines, while at the St. Regis en route to Douglas, in speaking of the new power system, said:

**THE FIRST TASTE**  
Learned to Drink Coffee When a Baby.  
If parents realized the fact that coffee contains a drug—caffein—which is especially harmful to children, they would doubtless hesitate before giving the babies coffee to drink.

"When I was a child in my mother's arms and first began to nibble things at the table, mother used to give me bits of coffee. As my parents used coffee exclusively at meals I never knew there was anything to drink but coffee and water."

"And so I contracted the coffee habit early. I remember when quite young the continual use of coffee so affected my parents that they tried roasting wheat and barley, then ground it in the coffee mill as a substitute for coffee."

"But it did not taste right and they went back to coffee again. That was long before Postum was ever heard of. I continued to use coffee until I was 27, and when I got into office work, I began to have nervous spells. Especially after breakfast I was so nervous I could scarcely attend to my correspondence."

"At night, after having coffee for supper, I could hardly sleep, and on rising in the morning would feel weak and nervous."

"A friend persuaded me to try Postum. My wife and I did not like it at first, but later when boiled good and strong it was fine. Now we would not give up Postum for the best coffee we ever tasted."

"I can now get good sleep, am free from nervousness and headaches. I recommend Postum to all coffee drinkers. Read 'The Road to Wellville' in 10 pages."

"There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

## TEXAS-ARIZONA IS IDLE PENDING SALE

The Property Owned by El Pasoans in Dragon District, Shows Well.

The Texas-Arizona mine in the Dragon district of Arizona has temporarily shut down pending a sale of the property. The mine is owned principally by El Pasoans, among whom are R. L. Nichols and L. Luehry, J. Q. Nelson, F. M. Miller, E. E. Neff, C. E. Zahn all of El Paso, and Ben H. Williams of Arizona.

A carload of ore, showing gold, silver, lead and copper values has been received at the local smelter. Work on the mine has progressed and shipment was made which netted \$285 at the El Paso smelter, according to reports. The main working shaft is down to a depth of 80 feet and will be sunk to a depth of 150 feet to intersect the incline shaft which is now down 80 feet.

## MACHINERY EN ROUTE FOR NEW OIL WELLS

Tucson, Ariz., Nov. 11.—The Hellville Oil company, which is about to commence drilling in Davidson's can-

yon about 40 miles southeast of Tucson and 12 miles from Vail station, announces that it has 40,000 pounds of machinery en route from Akron, O. Owners of the property claim that the field is good at a depth of 500 feet. Some of the oil bearing rock has been tested and found to yield 32 percent on paraffine basis.

**FIVE NEW CLAIMS ARE LOCATED IN NEW DISTRICT**  
Tucson, Ariz., Nov. 11.—Five new mining claims christened the Forty-Seventh Star group have been located in a new district south of Twin Buttes. The men who have already done assessment work on the properties say the surface indications are that there is an immense body of sulphide ore running 2000 feet long and 600 feet wide. The locators are Billy Roberts, Jack Davis and G. S. Wells.

**BISBEE MEN NAME NEW MINING COMPANY SURPRISE**  
Bisbee, Ariz., Nov. 11.—The new company organized by local people to develop 15 claims in the Coronado district has been called the Surprise Mining company. The concern is capitalized at half million dollars, at \$5 per share.  
E. A. Torrey, J. C. Collins, J. Gleason and others figure among the organizers.

## Scat! You Wolf Of Hunger, Scat! Food Prices Are No Higher, Yet

There is not a ripple on the surface of the fruit and vegetable market this week. No increase of prices has come to harrow our souls and make us lie awake at night, with a scanty purse under the pillow and a horrid looking "deficit" squatting on each bed post. No news is good news, so rejoice and be exceedingly thankful that touring cars do not cost any more.

The California vegetables now on the market make an ensemble of color and delicacy which make a back seat show window look like Hooten's in Houston. The population of the Garden of Eden was a back yard of a California tomato can compared with the onomatopoeic O-o-o-o-look country of the wonderful southwest.

Following are the local current quotations on fruits, vegetables, etc.:

**ROBISON ON TOUR OF UNSOLD LANDS**  
State Land Commissioner Is Coming to El Paso After Visiting Toiyah.  
Texas land commissioner J. T. Robison is coming to El Paso to look over the 60,000 acres of unsold state land in this county. He has been to Brewster county and has gone over the properties there and prior to coming to El Paso will visit the Toiyah oil field and all through the Delaware and Guadalupe mountains, where he will find a peak 9000 feet high, the highest point of land in the state of Texas.

**LOWELL CITIZENS PLAN CLUB HOUSE**  
Bisbee, Ariz., Nov. 11.—At a meeting at Lowell held to outline plans for the erection of a club house, \$700 was subscribed and since the meeting the sum has reached \$1000. It is expected that when a thorough canvass shall have been made, sufficient money will be secured for a handsome building.

The Bisbee board of trade has held a meeting after many months. A committee has been appointed to try to increase the board's membership. A new set of bylaws submitted by attorney O'Connell were adopted. It was proposed that the charity committee be separated in future from the board. The new powder "Santinite" which gives off no fumes on exploding and which is claimed to be more powerful and safer to handle than dynamite, is being tested here under the supervision of Gus Livingston and F. M. Riley. Sup. C. F. Hawks denies the report that a change of time on this division of the El Paso & Southern is contemplated for the near future. The 4 year old daughter of John Carretto fell from a retaining wall, a distance of 15 feet and was severely injured.

**SECOND EXCURSION TO TRADE HERE**  
Merchants Make Arrangements for Event and Condemn Keno.  
The second trade excursion of the Retail Merchants' league will be held during the first week of December. It was decided by the merchants in session at the chamber of commerce Thursday evening. Secretary C. A. Kinne read a financial statement of the first trade excursion, showing that the excursion brought \$1209.22 of business to the merchants participating. Ten percent of this amount was turned into the treasury of the organization and \$72.93 was refunded customers on railroad tickets. The committee, composed of C. A. Kinne and R. Silberberg, appointed to draft resolutions setting forth the position of the league as regards the keno games in Juarez, made its report and the resolutions were approved by the body. A set of the resolutions will be sent the mayor of Juarez, the governor of the state of Chihuahua, ex-governor Enrique Creel and president Diaz. President A. Schwartz, of the league, made an ineffectual attempt to give up the reins of office but was silenced by the protest of the merchants.

**MEXICO MAY ESTABLISH COURTS FOR JUVENILES.**  
Mexico City, D. F., Nov. 11.—Mexico may establish the juvenile court system on the same lines as the one conducted by Judge Lindsey in Denver, and the courts of other large cities in the United States. This is the opinion of a prominent jurist of this country and the leading jurists of this country are studying the American system and are favorably impressed with it.

**SMALL TOWNS FIRST TO GET POSTAL SAVINGS BANKS**  
The local postoffice has received no official answer to the application made by postmaster J. A. Smith to have a postal savings bank in the El Paso postoffice. It is said to be the intention of the department to locate banks at the small towns first. Postmaster Smith was one of the first to apply for a postal bank attachment for his office, but the local office will probably not get one until many of the smaller towns of the state have tried them out.

**WILL REQUIRE ANOTHER YEAR TO COMPLETE THEATER.**  
Mexico City, D. F., Nov. 11.—It will require at least one more year of work to complete the new National theater in this city. Several years have already been occupied in the work of construction.

**JUAREZ COUNCIL TO BUY CLOTHES FOR PRISONERS**  
Prisoners in the Juarez jail are all to be clothed, the city council having authorized the expenditure of money for this purpose. The exact amount required is not yet known, but several of the prisoners are almost naked.

**PATENT GRANTED EL PASOAN.**  
Washington, D. C., Nov. 11.—The following patent has been issued to an El Paso applicant:  
W. C. Mayo, assignor to Electric Gas Motor Car Co., G. W. Briggs, Barstow, and J. Houlihan, El Paso, controlling system for power traction cars.

**HUGHSTON'S BODY SENT TO TUCSON FOR BURIAL**  
Cananea, Mex., Nov. 11.—The remains of E. J. Hughston, the young man who died here on Sunday evening, were sent to Tucson for burial. They were accompanied by his mother and sister, who arrived in Cananea yesterday from Tucson. David Miller, interested in the Arizona-Cananea company, who has been in Cananea for the past week on business connected with the company, has returned to San Francisco.

## BEAUTIFUL HANDS AND ARMS.

A FAMOUS BEAUTY GIVES HER SECRET TO THE WORLD.  
A Free Prescription You Can Prepare at Your Own Home.

Many women take perfect care of their face and clothes, yet neglect their hands. Rough, red hands are almost as unattractive as ill-kept teeth. It is a simple, easy matter to keep your hands smooth and beautiful. The following prescription, which you can compound at your own home, is famous for the marvelous, instantaneous result it gives:  
Get from your druggist one ounce of Kulu Compound. Put it in a two-ounce bottle, add quarter of an ounce of witch hazel, fill with water and shake well.  
You will be surprised at the result when applied to your hands, arms or neck. Blemishes of every kind disappear as if by magic. Freckles, tan, rough skin, coarse pores, yield instantly to this application. This is the private prescription of a famous Parisian beauty.
